

# An Evening with Barbara Brennan

## —Doorway to a New Reality—

Spend a fascinating evening in the company of Dr. Barbara Brennan, the best-selling author of *Hands of Light* and *Light Emerging* and principal of the renowned Barbara Brennan School of Healing.

In her only public lecture in Germany this year, Barbara will explain the mysteries of the Human Energy Field or aura, illustrating how we create distortions in our fields that eventually lead to disease in the body.

One of the world's leading authorities on advanced energy healing, Barbara will outline sophisticated techniques that heal not only physical problems but also the emotional issues that are a product of our upbringing and the world in which we live.

She will also talk on expanding the scope of health care to meet the needs of the 21st Century.

A pioneer and innovator in the field of energy consciousness, the former NASA physicist has been exploring the Human Energy Field and realms of human consciousness for 30 years. She holds a PhD in Energy Medicine, a DTh in Healing and a Master's degree in Atmospheric Physics. Her books are considered the definitive works on energy healing.

**This exciting lecture will be one night only and promises a mind-expanding experience that will help you discover you are much more than who you think you are.**
